

Files Changed

Jonathan Velasco

May 18, 2008

Abstract

The following are the files that had been changed so far having in goal the support of tag. There is not warranty as it has not been tested yet. So far the changes include

1. Adding fiel to shearch for a tag to the browser
2. 'Search' the database for a tag. So far the result is 'empty' as no file have a tag
3. Possible files that may need modifications

1 Adding fiel to shearch for a tag to the browser

File

app/views/browser/_breadcrumb_and_filter.html.haml

Modifications

lines 43-46

```
%tr td.last-row:style =i "text-align: right;"= content_tag :label, "by tag:",  
"for" =i "filter_tag" td.last-row= text_field_tag "filter_tag", params[:filter_tag],  
:size =i 15  
%tr
```

2 Searching

File

app/models/earth/file.rb

Modifications

lines 91-94

```
# JON - search database for tag elsif filter_tag != '*' ["files.name LIKE  
? AND files.id IN (SELECT file_id FROM file_tag, tag WHERE files.id =  
file_tag.file_id AND tag.value LIKE ?)", filter_filename.tr('*', '%'), filter_tag.tr('*',  
'%')] # JON - end
```

3 Possible files that may need modifications

app/views/layouts/application.haml

spec/model/earth_file_spec.rb

test/unit/file_test.rb

test/functional/graph_controller_test.rb

app/controllers/browser_controller.rb
